Vice President of Technology Operations and CIO,
Buckeye Insurance Company

Agent Web Portal

Expanding into new distribution channels is critical for carriers' continued revenue and market share growth. Insuresoft's agency web portal offers a broad set of functionality targeted towards improving the processing time of applications and increasing the productivity of the carriers' work force.

With the agent web portal, carriers can extend functionality to agents that includes:

- Quote, rate and issue new business.
- Policy, billing and claims inquires.
- Handling of endorsements.
- Cancellation of policies.
- Easy integrations with comparative raters.
- Choicepoint – MVR, CLUE and credit ordering.
- Printing of forms.

Carrier benefits include:

- Expanding into new channels and better managing current channels.
- Providing your agents with easy to use technology can make the difference in growing your market share by enhancing ease of use and improving overall processing efficiency.
- By leveraging Insuresoft's agency web portal insurance carriers are experiencing profitable growth due to reduced cycle times associated with new business submissions and lower policy servicing costs.
- Insuresoft's agency web portal's highly intuitive user interface leverages a logical and customizable work flow that enhances the agent experience increasing ease of use.

The top screenshot displays the 'Buckeye Online' interface for creating a new policy. It includes sections for Transaction Information (Effective Date, Expiration Date, Company, Date, Line of Business, Term), Agency Information (Agency, Code, Producer), and Applicant Information (Applicant and Applicant 2, with fields for First, Middle, Last, and Suffix names). The bottom screenshot shows a 'Testing Policy' summary page with a 'Policy Information' section, a 'Driver Information' table, and a 'Vehicle Information' table.
