

"The rating toolkit from Insuresoft saves thousands of hours of testing. It assists Cincinnati Insurance in bringing rate changes to market faster."

Jim Streicher,
Vice President, Personal Lines,
The Cincinnati Insurance Companies

Rating Toolkit

Insuresoft recognizes the effort involved in handling rates and offers a suite of rating tools designed with the end user in mind. Whether an underwriter, actuary, or business analyst, the rating toolkit provides carriers with the most useful and needed components to maximize speed to market and accuracy when evaluating and making rate changes.

With the configurable rate book editor, carriers can:

- Facilitate rapid table driven rate changes.
- Make simple and accurate changes.
- Create new rate books easily by importing excel spreadsheets directly into the configurable rate book editor.

With the compare tool, carriers can:

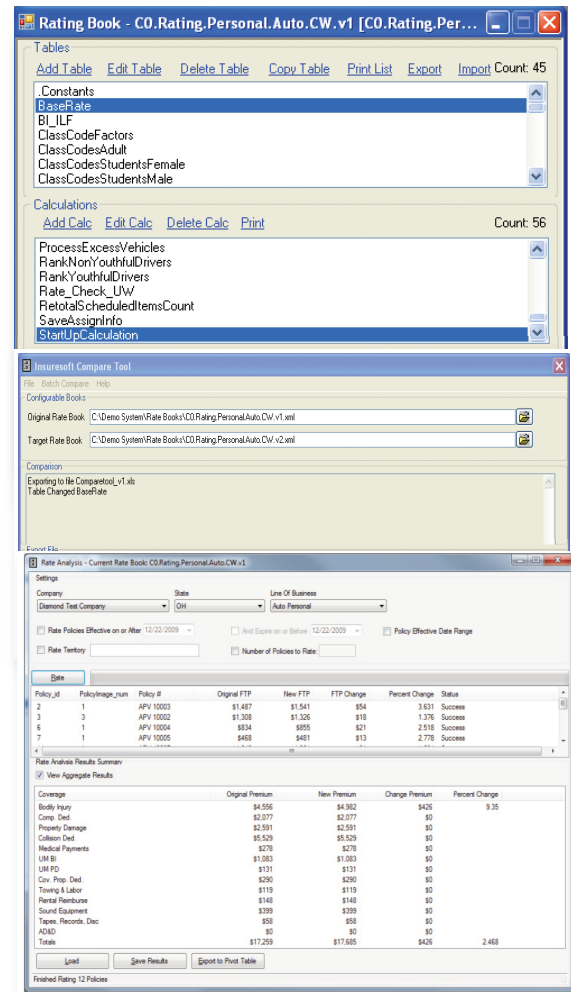

- Compare all tables and rules from one rate book to another.
- Changes are color coded and easily identifiable.
- View an audit trail to prove rate change accuracy.

With the rate analyzer, carriers can:

- Analyze "What if?" scenarios that test the validity of new rates.
- Verify rate versions for accuracy.

Carrier benefits include:

- The ability to alter territory base rates or other factors and relativities and gain a competitive edge overnight.
- The ability to test proposed changes to see how they will impact your book of business before the changes ever hit the streets.
- The ability to compare current rates with proposed rates to quickly make sure there are no typos or other mistakes.
